## Aviation Security Management (Classroom, 5 days)

In the changing landscape of criminal attacks on civil aviation and security regulations, the role of the Security Manager is vital in assuring efficient and compliant operations

Learn essential management and administration techniques to run your business while complying with national and international legislation. Through daily classroom simulations, test your ability to work under pressure in crisis situations and respond to common problems you may face in your daily operations.

### Course format

This classroom course provides 5 days (40 hours) of instruction delivered by an official IATA Instructor.

This course is scheduled back-to-back with the Aviation Security Management - Advanced course at IATA Training Centers worldwide. Register for both courses at the same time and we will credit them toward the Aviation Security Management Diploma.

### Prerequisites

- Participants should have a minimum of two years of experience in aviation or Civil Aviation Authority administration.
- Recommended level is Management and Professional.
- The recommended level of language proficiency is ICAO Operational Level 4 for courses in English or equivalent for other languages.
